

## RAPID DOSE THERAPEUTICS WINS TOP TEN IN GROCERY AWARD AT GROCERY INNOVATIONS CANADA (GIC)

Toronto, Ontario – Friday, October 26, 2018 – [Rapid Dose Therapeutics Inc.](#) (“RDT”), a Canadian biotechnology company, providing disruptive proprietary drug delivery technologies for the nutraceutical, therapeutic and pharmaceutical market is honoured to announce their product “QuickStrip™” won the highly respected “Top Ten in Grocery” award for non-food category at the GIC – [Grocery Innovation Canada](#) in Toronto this week.

Each year, the [Canadian Federation of Independent Grocers \(CFIG\)](#) awards program recognizes the success of outstanding independent retailers and offers insights into innovations that are changing and enhancing the way retailers compete.

QuickStrip was spotlighted at the New Product Showcase — where GIC features the latest and greatest innovations at Grocery Innovations Canada 2018. The showcase was an exciting opportunity to introduce QuickStrip as a recognizable consumer brand and product in the grocery and nutraceutical marketplace.

RDT’s innovative QuickStrip™ is an oral thin film technology that dissolves easily in the mouth – under the tongue, or inside the cheek — offering consumers a quick, convenient, precise and discreet way to take nutraceuticals. QuickStrip’s nutraceutical product line includes Vitamin B12, Energy (caffeine) and Sleep (melatonin) oral thin dissolvable strips. QuickStrip delivers nutraceuticals and supplements directly and quickly into the bloodstream — and can bypass the stomach and blood brain barrier.

“We are excited and honored to have RDT’s product QuickStrip selected to win the GIC “Top Ten in Grocery” by industry experts and the media.” said Mark Upsdell, “It is a fantastic achievement; Rapid Dose Therapeutics is excited to now deliver QuickStrip and our line of nutraceuticals to retailers and consumers — delivering health and wellness in Canada and beyond.”

Grocery Innovations Canada (GIC), is the premier and must-attend B2B grocery and specialty food show of the year, this was an action-packed 2 days of keynote speakers, educational workshops and innovative technology. This year's theme, LOOK BEYOND, focused on not just the immediate business concerns of technology, but ensures consumer and business relationships are maintained.

## Game Changing Delivery

### About Rapid Dose Therapeutics

Rapid Dose Therapeutics, RDT, is a Canadian bio-technology company providing a Managed Strip Service Program which enables proprietary drug delivery technologies designed to improve patient and consumer outcomes. RDT provides a turnkey service program for product innovation, production, and consultation to the pharmaceutical, nutraceutical and cannabis industries.
