

Rapid Dose Therapeutics Completes Milestone One Million QuickStrip™ Units Shipped to a Single Company

BURLINGTON, Ontario – November 24, 2021- Rapid Dose Therapeutics Corp. (“**RDT**” or the “**Company**”) (**CSE: DOSE**), a Canadian biotechnology company revolutionizing drug delivery through innovation, has completed a significant shipment of one million QuickStrip™ units to one of Canada’s largest cannabis companies.

Three unique formulations - 10mg THC, 20mg CBD and 20mg 1:1 ratio THC & CBD - were developed by RDT for use by medical cannabis patients following strictly controlled standard operating procedures and post-production testing requirements.

The adoption of the QuickStrip™ as a viable drug delivery method has confirmed and validated the technology as an effective needle free COVID 19 vaccine candidate.

“This significant order provided the opportunity for our RDT team to further streamline and perfect our manufacturing process, which will become increasingly relevant as we scale up for larger cannabis and nutraceutical production needs,” said Mark Upsdell, CEO, Rapid Dose Therapeutics. “This manufacturing and operational excellence is also ideally suited to support the research expansion of our oral vaccine candidate for COVID-19 as we get closer to starting human trials where production volume will be key.”
